

FREEDOM ACTION FLYER

**Are you a citizen
concerned with:**
***Travel Bans?**
***Privacy Rights?**
***Bodily
Autonomy?**
***Freedom speech
and assembly?**

Outlined below are recommended simple actions you can take to protect your human rights and fundamental freedoms from attack by the **World Economic Forum/UN**.

BACKGROUND: Many of your political leaders (Liberal, PC & NDP) are members of the WEF and are working hard in the interests of multi-national corporations to erode our democracy and your basic civil liberties. The WEF is set to the task of implementing the Agenda 2030 and United Nations Sustainable Development Goals.

DISASTER CAPITALISM: The WEF is an alliance with business, governments, organization, and experts dedicated to maximizing the impact of digital technology and the UN Sustainable Development Goals. They typically collude to orchestrate NATIONAL DISASTERS such as wars and pandemics to galvanize public consent and justify centralized control with exceptional over-reach and tyrannical mandates which violate civil liberties. Implicated in these activities are the privately funded World Health Organization (WHO), CDC and FDA and other technocrats representing big pharma and corporate medicine.

ERODING CIVIL LIBERTIES: Access to your hard-earned money, your freedom to speak freely and TRAVEL are your basic human rights protected in the Bill of Rights. So is your individual right for bodily autonomy since your health care and vaccine injections are a personal decision – NOT a national obligation! The Globalist's end goal is to consolidate power to a centralized one-world government, otherwise known as the New World Order technocracy, thereby eroding your democratic civil rights.

SOCIAL CREDITS SYSTEM: Many falsely believe the UN Sustainable Development Goals were crafted to benefit humanity. However, we know the W.E.F. and U.N. admit to a collaborative agenda of a maximum control grid of citizen's finances and social behaviors, such as through the ubiquitous use of DIGITAL ID's and Programmable Digital Money. Evidence of this agenda's early rollout are Vaccine Travel Passports preventing free movement for unvaccinated, and the 5G Internet of Things (IoT) network. Biometric track and trace policies for example include the Canadian government freezing bank accounts of legitimate peaceful protesters insisting on their basic Civil Liberties and other valid labor concerns.

ONE WORLD GOVERNMENT: The UN and superpower states (USA, G8 & EU) have explicitly stated their "New World Order" centralization agenda to galvanize a "One World Government."

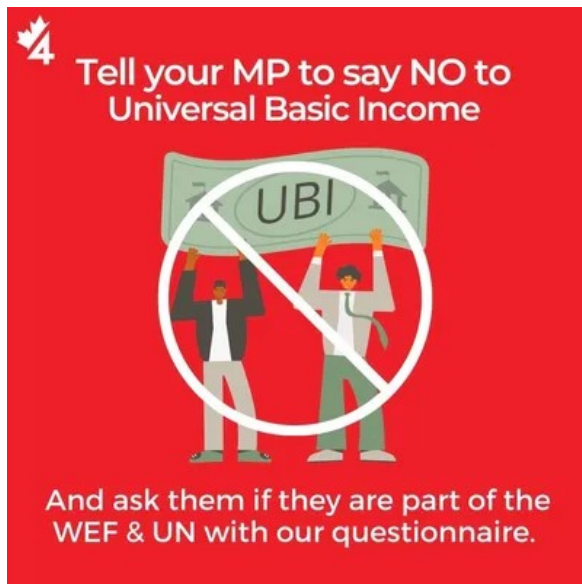

MAKING PROTESTING ILLEGAL: Canadian PM Trudeau along with other member of the WEF MPP David Lametti, Bill Blair Marco Mendicino also signed an illegitimate order to illegally shut

down the Freedom Convoy 2022 which was focused on challenging mandatory vaccination for travel.

www.STAND4THEE.com

MONITOR & BE VIGILANT OF:

Keep your eye on **Bill SS-226**. An act to amend Constitution Act 1867 and the Parliament of Canada Act. This bill will legalize the Charter of Rights and Freedoms by finally ratifying the Canada Act 1982. Effectively this would convert Canada into a communist country with no guaranteed rights and freedoms only collective rights determined by the state. Watch for stand4thee.ca action on this Bill SS-226.

ALERT: This globalist controlled centralized world government has also explicitly endorsed a mission of world **population control (UN-SDG)**. Link: [HTTPS://www.weforum.org/projects/frontier-2030](https://www.weforum.org/projects/frontier-2030). The goals include reducing consumption of resources by supporting a reduction in the world's population at at an annual rate of 10%

 The WEF is set to advance technologies to support these goals and reduce your freedoms. Implicated in their agenda is the use of programmable digital currency (to control what you spend, where and why) and your travel limitations!!! Biometric track & trace technologies are already being leveraged in Canada (vax-pass) to roll-out a Chinese style SOCIAL CREDITS system with A.I. algorithms to plan and control your spending behaviors. **First steps have involved mass censorship legislation:** already passed **Bill C-10, C-36**) and the soon to be passed **UBI (Universal Basic Income) and Social Credits System (Bill C-233 and Bill C-100)**. To excuse the surrendering our basic civil liberties our government leaders have used the excuse of the environment, wars and have exaggerated public health risks. But the greater agenda

involves media propaganda, economic warfare and distracting public attention with a series of planned disasters (i.e., pandemics & wars) with the aid of MASS CENSORSHIP of media; and A.I. social control scores.

ACTIONS YOU CAN TAKE: stand4thee.ca has two actions to fight the mandatory vaccine passports and Bill 233. These actions are:

1. **VISIT STAND4THEE.COM website.** Learn about the latest issues affecting your civil liberties and the power of the Canadian Bill of Rights (and why the Canadian Charter of Rights is not a recommended).
2. **FILE A SIMPLE SMALL CLAIM:** Join a mass number of small claims applications against the minister of transportation Omar Alghabra for his illegal vac passport mandate for travel. You will find templates and instructions how to file this lawsuit on the website. In small claims court it is cheap, simple, and only 15% of what you are asking for to pay out if unsuccessful. This court was designed to access without a lawyer. Act against PM Trudeau and company regarding the illegal closure of the trucker's vac passport for travel protest. **NOTE:** 2 judges have ruled that the protest was legal. Therefore, we can easily demonstrate the right to compensation for that our right to free speech and assemble being violated and recoup all other losses. Anyone who protested daily or came and supported can file this one. A template for trucker Brian Derksen has been prepared that others can use. And affidavits of witnesses are available.
3. **BE AWARE OF FUTURE ATTACKS:** Members of the WEF who have introduced in the Canadian House of Commons a nefarious bill regarding guaranteed livable basic income (GLBI) called Bill 233. This Bill will allow the federal government to add conditions to the receipt of Employment Insurance, Disability Pensions and Old Age Pensions. They call these conditions standards. The government is preemptively refusing EI to unvaccinated persons. Stand4thee has prepared a letter challenging the MPs on this bill. Letter to MPP on Bill C233 which includes questions about their affiliation with WEF and the UN.

 You can also find out who is a member of the WEF or who recently took their name off the list such as Perrier Poilievre and Doug Ford spread the word not to vote for these people who are selling us out.
